

From gap analysis to certificate — without the guesswork.

We help manufacturers, medical device companies, defense contractors, and tech firms build audit-ready systems that pass the first time and support business growth.

WHO WE ARE

Experienced guidance. Practical results.

Norma Via Group is a Seattle-based ISO and compliance consulting firm serving clients across the United States.

We bring a triple perspective to every engagement: **manufacturer, auditor, and consultant** — so clients know what to build, what auditors expect, and how to pass with confidence.

Audit-ready systems

Documented, lived-in management systems — not paperwork built the night before the audit.

ISO + Cybersecurity, one partner

Management systems and cyber frameworks under one roof — no hand-offs between specialists.

Long-term partnership

First conversation always free. Most clients work with us across multiple recertification cycles.

WHO WE SERVE

- ▶ Manufacturers & parts makers
- ▶ Medical device & life sciences
- ▶ DoD contractors (CMMC)
- ▶ SaaS & cloud providers (SOC 2)
- ▶ Electronics & hardware OEMs
- ▶ Regulated supply chains
- ▶ AI governance (ISO 42001)
- ▶ IT service providers

HOW WE WORK — GAP-FIND · BUILD · AUDIT · CERTIFY

1

Gap Analysis

Assess & prioritize

2

Build

System & documentation

3

Audit Ready

Internal audit & review

4

Certify

Pass on the first attempt

WHY NORMAVIA

Honest Scoping

If you don't need certification, we'll say so. If your timeline is unrealistic, we'll say that too. The first conversation is always free.

Real Expertise

You'll work with people who have led 300+ audits across 22 countries — not a junior assigned a checklist.

Long Partnership

Certification is the start, not the finish. Most clients work with us across multiple recertification cycles.
